WELCOME

Dear Colleagues,

The AGES Board is delighted to welcome you to Perth, Western Australia for the AGES Focus Meeting entitled 'Endoscopy for Fertility'.

Prior to the commencement of the meeting we are holding an AGES workshop in robotic surgery at St John of God Hospital, Subiaco, facilitated by experts from the USA, Assoc Professor John Boggess and Dr Lynn Kowalski. The workshop is designed to:

- examine the role of the robot in gynaecology surgery
- provide one to one practical interaction with the robot, and
- demonstrate a case of live gynaecological robotic surgery.

Approximately 10-15% of couples will require some form of assistance in achieving a pregnancy, and this figure may be higher in certain groups of patients.

Endoscopic surgery has provided not only improved means of diagnosis of problems, but also surgical options to treat conditions where improved fertility outcomes are needed.

The meeting in Perth aims to show the current and future role of endoscopic surgery in sub-fertile couples, with national and international experts in the area.

Topics to be discussed include management of uterine anomalies, training in minimal access surgery for fertility specialists, hysteroscopic surgery, management of pelvic and adnexal diseases, management of tubal disease, fertility preserving cancer surgery, interactive sessions involving complications of surgery in those wishing to conserve fertility and new techniques for fertility surgery and robotic surgery.

We aim to explore the breadth and depth of Endoscopy in this field of gynaecology, so those attending the meeting will have a greater practical and theoretical knowledge of the area to apply in practice.

We are privileged to have a number of international experts at this meeting. Professor Togas Tulandi is well known in the field of endoscopic surgery and fertility with countless publications and books written on this topic, and most involved with fertility work with are aware of his reputation. Assoc Professor John Boggess and Dr Lynn Kowalski are leaders in the burgeoning world of robotic surgery, with Assoc Professor Boggess lecturing and operating internationally on robotic surgery.

The Gala Dinner will be held at the award winning Matilda Bay Restaurant overlooking the Swan River and the City.

We also encourage you to explore Perth and surrounding areas during your stay. It is the perfect time of year to visit the wineries and sites in the south-west of Western Australia, and to enjoy the beaches and restaurants of Perth.

We look forward to seeing you in Perth in November 2008.

'Come See and Play with the Robot'

AGES would like to welcome you to Perth and one of the first Gynaecology Robotic Surgery Workshops in Australia.

AGES has always been at the forefront of innovation in gynaecological surgery and is considered a leader in the field.

In recent years one of the major advances in surgery has been the use of robotic technology. At this moment in time it is in its infancy in Australia, but is being used on a regular basis in the USA. We are privileged to have two of the world experts in gynaecologic robotic surgery from USA - Assoc Professor John Boggess and Dr Lynn Kowalski – in Perth to demonstrate and to perform live surgery using the robot. These the first cases of robotic gynaecological surgery in Western Australia will be performed at St John of God Hospital, Subiaco.

This workshop aims to not only discuss the theory and uses of the robot, but also to get a "hands on" experience with the robot and see live surgery using the robot.

This workshop will be of use to anyone interested in the future of gynaecological surgery.

We look forward to seeing you here prior to the AGES *Endoscopy for Fertility meeting*.
